LOUISIANA STATE UNIVERSITY AT ALEXANDRIA

History

Louisiana State University at Alexandria is located approximately six miles south of the city of Alexandria in Rapides Parish in predominantly rural central Louisiana. The campus is located on land that was originally part of Oakland Plantation, but the property had been owned by Louisiana State University since 1946. The Dean Lee Agricultural Center was established on the property in 1955. In 1959, the U.S. Congress released a portion of the Dean Lee property for general education purposes. That same year, the Louisiana Legislature authorized the establishment of LSUA as a two-year commuter college under the governance of the LSU Board of Supervisors. LSUA registered its first students in September 1960. The sophomore curriculum was added in 1961. The first degree program, an Associate in Nursing degree, was initiated in the Division of Nursing in 1964.

In 1967, the additional academic divisions of Liberal Arts, Business Administration, and Sciences were created. The Division of Nursing was renamed Nursing and Health Sciences in 2000. In 1974, LSUA was accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (SACS) to award associate degrees. This accreditation was reaffirmed in 1984, 1994, and 2005.

Only one associate degree was available at LSUA from 1964 until the Associate of Arts and Associate of Science transfer degrees were approved in March 1986. Over the next 15 years, several associate degree and certificate programs were added. These new programs included the Associate of Science in Computer Information Technology (first offered in 1988); the Associate in Criminal Justice (first offered in 1994); the Associate of Science in Clinical Laboratory Science (first offered in 1996); the Associate in Paralegal Studies (first offered in Fall 1999); the Associate of Arts in Early Childhood Education (first offered in Spring 2001); the Certificate in Pharmacy Technician (also initiated in Spring 2001); and the Associate of Science in Radiologic Technology (first offered in Fall 2001).

From 1976 through Spring 2003, Louisiana State University and Agricultural and Mechanical College offered the upper-level course work for select bachelor's degree programs on the LSUA campus through a program known as LSU Senior College. Initially, the Bachelor of Science in Business Administration and Bachelor of General Studies were offered. The Bachelor of Science in Elementary Education was added in 1982-83.

On June 5, 2001, following approval by both the Louisiana State University Board of Supervisors and the Louisiana Board of Regents, the Louisiana Legislature passed legislation (Senate Bill 853) allowing Louisiana State University at Alexandria to offer baccalaureate degrees. In December 2002, SACS approved a substantive change, level change request for LSUA, thereby accrediting the university to award both associate and baccalaureate degrees.

In Fall 2003, LSUA was reorganized into colleges and departments rather than divisions. The College of Arts and Sciences consists of the departments of Arts, English and Humanities; Behavioral and Social Sciences; Biological Sciences; and Mathematics and Physical Sciences. The College of Professional Studies consists of the departments of Allied Health, Business Administration, Education, and Nursing.

LSUA began offering four baccalaureate degrees in Fall 2003: Bachelor of Science in Biology, Bachelor of General Studies, Bachelor of Science in Elementary Education, and Bachelor of Liberal Studies. Because there were students at LSUA who had completed upper-level course work through LSU Senior College, LSUA was able to produce its first bachelor's degree graduates in December 2003.

At present, students pursuing a Bachelor of Liberal Studies can choose one of seven different majors: Business, Communication Studies, English, History, Mathematics, Psychology, and Theatre. A Bachelor of Science in Psychology was approved by the LSU Board of Supervisors in March 2005. Additional bachelor's degrees are being developed.

HURRICANE DISPLACED STUDENTS ENROLLED AT LSUA IN FALL 2005

At the beginning of the Fall 2005 semester, Hurricane Katrina devastated southeastern Louisiana and southern Mississippi and caused many colleges in that area to delay or cancel the fall semester. Colleges in other parts of the state allowed students displaced by Hurricane Katrina to enroll after registration deadlines had passed. The data below describe the hurricane-displaced students that were enrolled at LSUA as of the Fall 2005 14th day census date. These students are not included in statistics reported elsewhere in this Fact Book.

*Does not include students enrolled at LSUA due to displacement by Hurricane Katrina.

¹ All data in this table are from fall semesters only. Enrollment statistics have not been collected in a consistent manner over time. For example, they were not always collected on the 14th day of the semester, and student credit hours for students in off-campus courses were not always reported in the totals. There is no easy way to address these discrepancies now, however, these discrepancies are not great enough to alter the interpretation of the overall trends.

² For this table, FTE students were calculated by dividing total student credit hours by 12. While the Louisiana Board of Regents uses 15 credit hours as an FTE student, we use 12 hours as full-time for most federal reporting.

ENROLLMENT HISTORY*

1960 - 2005

Fall semester enrollment only.

There were slight inconsistencies in data collection from year to year.

²CAPS is counted as one program.

³Enrollment figures are duplicated headcounts. That is, an individual who enrolled in more than one course or program would be counted each time he/she enrolled.

⁴Sum for all courses of the number of students per class times the number of hours that the class met.

² Assignable square feet are those available for use for classes, programs, offices etc. Not included are hallways, mechanical areas, restrooms, custodial closets, etc.

³ Building condition codes are as follows:

RMA = Requires renovation not greater than 25% of replacement cost.

RMB = Requires renovation greater than 25% but less than 50% of replacement cost.

RMC = Requires renovation greater than 50% of replacement cost. SAT = Satisfactory

Library Services¹

The LSUA library's physical holdings are housed in the James C. Bolton Library. Electronic holdings are available through any computer on campus and from off campus for users with passwords. The on-line catalog is available through the Internet.

The library is a member of three consortia: LALINC, SOLINET, and LOUIS. LALINC (Louisiana Academic Library Information Network Consortium) includes all of Louisiana's public and private colleges and universities. LALINC cooperative agreements include reciprocal borrowing, library resources for distance education, and DEEDNet (internet fax protocols for priority delivery of articles to LALINC member libraries). SOLINET (Southeastern Library Network) is a consortium of libraries in the Southeastern United States, which provides shared access to catalog records across the region and throughout the world. Louis: The Louisiana Library Network coordinates index and database subscriptions and supports the infrastructure for LSUA's online catalog. Through a recurring federal grant administered by the State Library of Louisiana, LSUA benefits from a courier service that delivers library materials from any library in the state to another. LSUA is the only university library in the state to issue library cards free of charge to people in neighboring communities.
